WHERE ACTIONS MEET WORDS.

We listen to Mother Nature, and feel obliged to align our company with the environment. We invite you to follow our example!

- Our raw timber is almost exclusively derived from European, sustainable forests.
- We are the first parquet manufacturer to have ceased using tropical hardwood timber for a number of years.
- Support for Greenpeace forest projects. By purchasing a Weitzer Parkett product, you are contributing to saving the last remaining virgin forests in Romania.
- Energy is a valuable resource. Our internal biomass power plant, photovoltaic systems and hydroelectric power plant allow us to produce not only environmentally friendly district heating but also eco-power. The energy produced in this sustainable manner provides power not only to Weitzer Parkett but also to more than half of the city of Weiz. This corresponds to a capacity of more than 2000 households.
- We significantly contribute to a positive eco balance by means of our overall value-added routes of chain: resources from nearby locations, short transport-routes, production in Austria, renewable energy and much more.
- **We are a step ahead: Weitzer Parkett is the first and only manufacturer in the market to offer an overall solution for parquet flooring and adhesive that is free from plasticizers.**

WE LISTEN TO MOTHER NATURE

OUR ENVIRONMENTAL
RESPONSIBILITY.

“Healthy, flourishing forests play a key role in the global climate, and consequently for life as a whole. Accepting responsibility for the environment is a major concern for us. That’s why, as personal sponsors, we support the **GREENPEACE** forest campaign in Romania for the preservation of the last remaining virgin forests in Europe.”

ENVIRONMENTAL PROTECTION: WE'RE TAKING A STANCE.

As the world's oldest and best-known eco-label, the Blue Angel stands for credibility and competence. It identifies products which are particularly environmentally friendly and at the same time meet high demands in relation to health and employment protection. Weitzer Parkett products have been tested in accordance with these strict guidelines, and as a result are entitled to carry the Blue Angel seal of approval.

WE STAND FOR REAL VALUES.

Developed by the European Federation of the Parquet Industry ("FEP"), only solid and multi-layered real wood floors such as those manufactured by Weitzer Parkett may carry the Real Wood logo. The campaign for real wood floors has been developed to avoid confusion between real timber floors and laminate floors (laminate cannot carry the "Real Wood" label.)

WE TAKE RESPONSIBILITY.

Weitzer Parkett bears the PEFC Certificate of sustainable forestry. This Europe-wide system of forest certification acts as a common framework for national and regional certification schemes. PEFC (Programme for the Endorsement of Forest Certification scheme) is an independently controlled certification system initiated by European private forest owners and promotes sustainable forestry.

Ü SYMBOL: WE'VE BEEN TESTED.

The 'Ü' label stands for emission-tested building products in Germany which have been compulsorily tested, and must be approved, in accordance with the principles of the Deutsches Institut für Bautechnik ('DIBt'), the German Institute of Building Technology.
